

SUSTAINABLE SOLUTIONS

Responsible Manufacturing, Brilliant Results

At Boca Lighting and Controls, we believe sustainability is integral to innovation and are committed to minimizing our environmental footprint in every step of our process. We take pride in creating high-quality, environmentally conscious products while promoting responsible practices that benefit both our customers and the planet.

Designed, Engineered, Manufactured, and Tested in the USA

Located in South Florida, we are supporting the local economy while reducing our carbon footprint.

Recycling All E-Waste, Glass, Plastics, and Metals

Ensuring responsible disposal and repurposing of manufacturing waste to minimize environmental impact.

Recyclable Packaging

Our product packaging is recyclable to promote sustainable disposal practices.

Recyclable Aluminum Extrusions

Using aluminum extrusions that can be easily recycled, contributing to a circular economy.

RoHS Compliant Electronic Components

All electronic parts meet stringent standards to limit hazardous substances and promote safer products.

Bulk Packaging Available Upon Request

Designed to minimize job site waste, providing an eco-friendly option for project management.

Recyclable Product Components

Most of our products' metal, steel, and plastic parts are recyclable. Additionally, we accept retired electronics back at our factory for free recycling.
